## ABOUT US

Sai Satyam Texturisers is a renowned textile manufacturing company established in 2011 by Mr. Lavjibhai Hapaliya. Starting from humble beginnings with a small rental space, the company has grown exponentially to a state-of-the-art manufacturing facility spread across 1 acre.

Mr. Lavjibhai Hapaliya, with his 25 years of experience in looms, recognized the immense potential in the texturizing industry and leveraged his extensive knowledge to establish the company. Today, Sai Satyam Texturisers is a leader in the industry with a reputation for producing high-quality textile products.

The company's modern manufacturing infrastructure comprises of 6 texturizing machines, 8 TPM machines for yarn twisting and 2 PCW machines. This robust infrastructure enables the company to achieve a high production capacity of 300 tons per month.

# Company Hierarchy

To improve the efficiency of our company, we have implemented a clear work structure. The management level is led by **Mr. Lavjibhai Hapaliya** and his two sons **Bhavin Hapaliya & Himalay Hapaliya**, while we have two supervisors and four masters overseeing the work of 45 employees. This structured approach ensures that everyone knows their roles and responsibilities, and we are able to communicate effectively to achieve our goals. Additionally, we invest in training and development programs to improve our employees' skills and productivity and use technology to streamline our operations.

# How we do?

At Sai Satyam Texturisers, we take pride in our simple yet effective work process that ensures our customers receive high-quality products consistently. Our process starts with purchasing raw materials from well-known companies like Reliance, Filatex, Garden Mill, and Sumit, renowned for their superior quality materials.

Once we have acquired the raw materials, they undergo our advanced texturing process, which is designed to enhance their texture and overall quality. Our texturing process is carried out by our team of experienced professionals, who use state-of-the-art machinery to ensure that every material is processed to the highest standards.

Before any product leaves our manufacturing facility, it undergoes rigorous quality control testing to ensure it meets our stringent quality standards. Our team of experts conducts thorough quality checks to ensure that our products meet or exceed our customers' expectations.

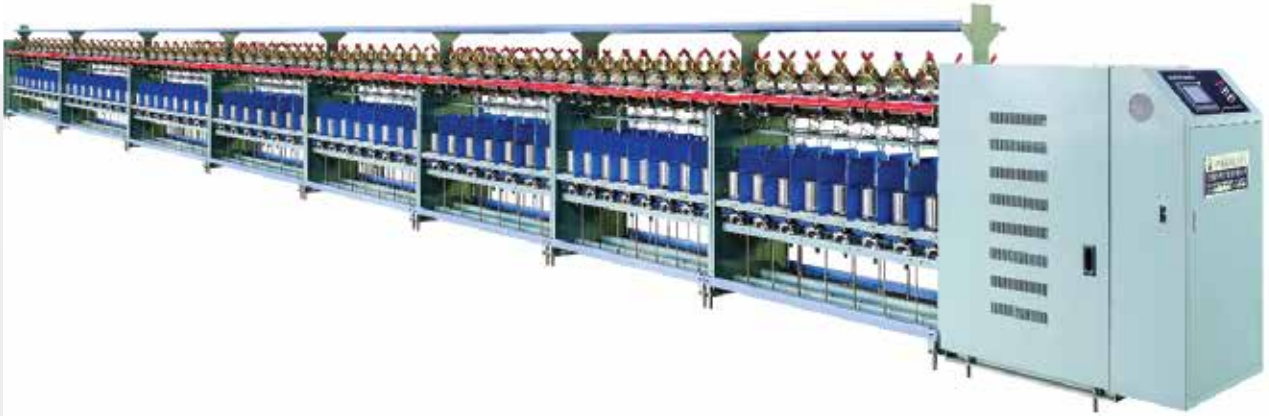

Once the products have passed our quality control checks, they are weighed and packaged with utmost care to ensure their safety during transportation. We understand the importance of timely delivery to our customers and ensure that our products are delivered promptly and efficiently.

At Sai Satyam Texturisers, our focus on quality is the driving force behind our work process. We are committed to consistently delivering high-quality products to our customers and ensuring their satisfaction with every purchase.

# Our Machines

# Our Financials

Today, our company is experiencing a growth rate of at least 20% annually in financial terms. Currently, we are exporting 25% of our production to three countries, namely Pakistan, Bangladesh, and Turkey. As part of our future plans, we aim to increase our exports to 50% of our production. To achieve this, we will be utilizing 11 high-tech machines and increasing our monthly production to 600 tons.

# Social Responsibility

We take great pride in our company's commitment to educating the children of our workers for higher education. In addition, we have taken on various social initiatives such as feeding orphans, planting trees, and engaging in other impactful activities that benefit the community.
